Solution Kit Instructions

► Print and cut the Solution Kit pictures or save to your phone/device photos. You can make the cards sturdy by laminating, gluing the cards to cardboard, or covering them with clear contact paper.

► Read the Problem Solving Handout with your child to teach the problem solving steps.

► Introduce the Solution Kit with a few solutions at a time.

► Place the solutions in a place where your child will see and use them (e.g., hanging on the wall, saved to a tablet).

► Remind children to use the Solution Kit when solving problems at home.

► Offer lots of encouragement when your child tries to use the Solution Kit.

► Comment positively when your child uses the Solution Kit (e.g., “Look at you. You are using the Solution Kit to solve your problem”).
