

Promoting Social Emotional Competence in California's Young Children

Teaching Pyramid Partner Site Community of Practice Webinar Series

2018-19 School Year

The Teaching Pyramid

The Teaching Pyramid is a comprehensive program-wide approach designed to help educators promote social-emotional competence, address challenging behaviors in young children, and develop safe and nurturing group environments for all children

Partner Sites

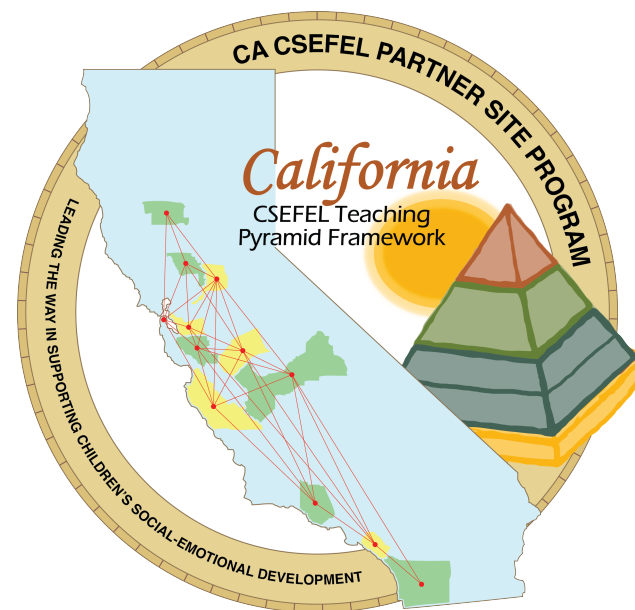

Full program-wide implementation is what makes CSEFEL unique. Partner Sites are practicing sites that are interested in implementing the framework with fidelity, sharing data, and sustaining implementation. They have been formally recognized by CA CSEFEL and are participating with CA CSEFEL to share their practices and support statewide implementation.

Community of Practice

The Community of Practice is an online forum for sharing and communicating information and ideas across programs. More information about this forum will be shared at the first webinar.

The Webinar Series

The Webinar Series is a way for the Community of Practice to come together on a regular basis to sustain and deepen their practice, share their learning, and keep up to date with new developments. Each Webinar this year will feature program sharing, new products, and video exemplars from the Inventory of Practice collected from Partner Site programs. These Webinars are designed to help programs achieve and maintain fidelity of implementation.
